

Experience **Communications** in High Definition

High Definition Video Communications

Experience Communications in HD

High Definition has changed the face of video communications, enabling an experience as authentic as if you're physically sitting in the same room. Now organizations can truly realize the promise of video communications.

- ✓ Higher productivity, better engagement
- ✓ Increased interaction
- ✓ Reduced travel – saving time, saving money
- ✓ Less time out of office, more time making decisions
- ✓ Reduced carbon emissions

LifeSize pioneered high definition video communications. We harnessed the power of HD to deliver the most engaging communications experience – ever. Delivering award winning, immersive HD in all solutions.

The LifeSize Difference

How are we different? We designed a revolutionary architecture purpose-built for high definition video communications. Using the most advanced technology, LifeSize delivers the ultimate in quality, flexibility and price performance.

Superior Quality of Experience

Stunning HD video allows you to see every movement, every gesture. The easy to use, intuitive interface invites interaction, encourages use. Dramatically increased usage means enhanced communication, greater productivity. The result - demonstrable ROI.

Unique Flexibility

Easily deployed on any IP network, LifeSize solutions have been proven to deliver the best bandwidth/performance in their class. No costly network build out required. No expensive additional equipment to buy.

Unmatched Price Performance

All of this, priced for broad deployment. No hidden costs. With the lowest acquisition cost, and lowest total cost of ownership, LifeSize makes HD video communications accessible to everyone.

LifeSize HD Video Systems

Seeing is believing

Every LifeSize video communications system delivers high definition audio and video, and integrated data sharing across any IP network. Standards-based and interoperable, LifeSize systems are easily and seamlessly integrated into existing environments and reliably managed with LifeSize Infrastructure and Management solutions.

Telepresence on your terms

Being Present at a Distance

You can achieve the telepresence experience today, in any environment. It starts with a superior foundation - all HD - the essential building block to deliver the telepresence experience.

Full HD video so engaging it creates the sensation of being physically in the same room. Lifesize images and natural eye contact replicate authentic presence.

Telepresence for your environment

No longer does telepresence have to be complicated, restricted to fixed room configurations or require expensive build out and structural reinforcement.

LifeSize Conference 200 delivers telepresence in Full HD 1080p30, and 720p60 for ultimate quality and motion handling, and supports True HD 720p30 for an immersive telepresence experience.

LifeSize Telepresence

Unmatched price performance – uniquely LifeSize.

Conference 200 makes telepresence accessible beyond the fixed telepresence suite.

Conference 200 is the only Full HD telepresence system that can be tailored to your environment.

The unique flexibility of LifeSize Conference 200 means you can achieve telepresence in any room. Requiring just 1/3 the bandwidth of other telepresence solutions, Conference 200 can be deployed on any IP network.

LifeSize Management & Infrastructure

Connect. Control. Manage.

Expand your multipoint calls, bridge legacy ISDN networks, traverse firewalls and securely manage your HD network. LifeSize Infrastructure and Management systems extend and control your communications network.

Centralized Control at your Fingertips

LifeSize® Control™ provides secure, real-time management, scheduling, reporting, remote software upgrades and provisioning. Open and standards-based, LifeSize Control manages heterogeneous video networks, seamlessly integrating into existing network environments.

Multipoint Control Unit	Gateways	NAT and Firewall Traversal	Gatekeeper
LifeSize® Multipoint™ connects multiple sites in HD. Enable desktop video users to participate in conferences with LifeSize® Multipoint Extension™.	LifeSize® Gateway™ enterprise-class HD gateway for ISDN to IP network connectivity. LifeSize® Networker™ is the ideal gateway for smaller networks.	LifeSize® Transit™ network address translation and firewall traversal enables secure video calls within and across the enterprise.	LifeSize® Gatekeeper™ provides intelligent management of IP telephony and video communications networks.

Investment Protection

LifeSize® Assurance Services™ provide a core suite of services designed to help you select, design, install and maintain your LifeSize video communications network.

Assurance Services protect your technology investment and extend the life of your products, delivering ease of management and maximum ROI. From pre-sales evaluation and installation services, to ongoing technical support, LifeSize Assurance Services include a range of services to meet the needs of any organization. Extend and protect your LifeSize HD experience with LifeSize Assurance Services.

LifeSize Communications

LifeSize pioneered High Definition video communications to enable people at a distance to communicate as clearly, as naturally, as effectively as being physically present in the same room. Our commitment to superior quality, unique flexibility and unmatched price performance enable the benefits of video communications to be realized by organizations of any size.

LifeSize is relied upon around the world by Fortune 500 companies, small businesses, education and healthcare organizations and government agencies to enable effective, productive communications. Experience communications in high definition. LifeSize High Definition Video Communications.
